

**Professor John Simmons FRSE and Dr James Ritchie,
Heriot Watt University Institution**

National Cheng Kung University, Taiwan

Following the RSE-funded visit to work with Professor Jing-Jing Fang at the National Cheng Kung University, Taiwan in 2004, Professor Fang has now received confirmation of support from the National Science Council of Taiwan to take forward a joint project concerned with computer assisted modelling of facial features for reconstructive surgery. Those involved agree that this exciting collaboration would not have been possible without the initial seedcorn funding provided by the RSE.
